And for those of you who are eagle-eyed, we made a HUGE mistake.on the back of the stickers... the dates are wrong. TRANSFORMERS

CYBERTRON™
ROBOTS IN DISGUISE

BRAND NEW SERIES

This September the most famous battle-bots in the universe blast back into action.

Now fully rendered in state-of-the-art CGI graphics, the new generation of transforming super-bots are bigger, badder and packing more firepower than ever before...

Iconic Autobots like Optimus Prime have been powered up with new modes and never before seen Mini-cons, but there are also hordes of new characters that will be turning up to help or hinder our heroes as their adventure unfolds.

TUNE IN

Toonami

Monday to Thursday at 8.30am and 3.30pm
Weekends at 7.30am
From Monday September 5

THE PLOT

Transformers Cybertron follows the Autobot's heart-stopping race with the Decepticons to find the lost Cyber Planet Keys. A black hole is threatening to suck in the Transformers home planet of Cybertron and the keys are the only way to save their home planet from certain destruction.

It's not going to be a space walk for the Autobots, though. The Decepticons are also after the keys to help them take over the universe and turn the Autobots into scrap! Tune in and catch the action from Monday September 5, only on Toonami. >>>

OPTIMUS PRIME

OPTIMUS PRIME is a leader in the best sense of the word, dedicated to the protection of all life and the preservation of freedom for all sentient beings, he serves as a role model for his fellow AUTOBOTS .

MEGATRON

After absorbing the power of the fearsome UNICRON, MEGATRON is phenomenally more powerful than ever before, and is determined to beat OPTIMUS PRIME and the AUTOBOTS to the lost Planet keys.

VECTOR PRIME

VECTOR PRIME is one of the first TRANSFORMERS. After being deceived by MEGATRON into revealing his star map of the lost colonies he becomes a fast friend and powerful ally of the AUTOBOTS.
